Comfort LX III

ELEVATE YOUR
PROPERTY'S
SLEEP
EXPERIENCE

All Best Western properties have the option to elevate the guest sleep experience by upgrading to the Comfort LX III from Stearns & Foster. These innerspring masterpieces deliver the indulgent comfort that keeps guests coming back.

- Luxurious, antimicrobial, water-resistant knit fabric
- Chill™ Technology to promote cool, comfortable sleep
- Premium high-density, pre-compressed, gel-infused foams in all layers
- Gel Visco memory foam in some layers
- Extra layer of foam in the center third to guard against body impressions
- Individually encased coils for reduced motion transfer
- PrecisionEdge Coil Edge System for more usable sleeping surface and greater durability
- Copper air vents for breathability and increased airflow
- Eight vertical handles for easy lifting

STEARNS
& FOSTER®

Built to Support You, Your Guests and Your Staff

Hand-built by specially trained master-craftsmen, Stearns & Foster® mattresses meet the industry's most rigorous standards to ensure long-lasting comfort and easy housekeeping — resulting in higher occupancy and rave reviews for your property.

Antimicrobial, water-resistant luxurious knit fabric for long-term protection of the mattress layers, and covers featuring Chill™ Technology for cooler sleep.

Twice-tempered, individually encased coils for durability, comfort and support with minimal motion transfer. The encasements are stitched and adhered together to prevent coil rows from separating.

No-skid foundation top to keep the mattress in place while changing linens.

Hospitality-grade foundation with solid wood construction, built to last in high-traffic hotel environments.

Premium, high-density foams, pre-compressed and infused with gel to ensure long-term strength and promote a cooler night's sleep.

Extra foam in the center third to minimize body impressions where guest weight is concentrated.

Solid copper air vents for breathability and cooler sleep.

Eight vertical handles for easy lifting.

PrecisionEdge™ Coil Edge System for more usable sleeping surface and improved durability.
