Inspired by Life's Simple Moments

A Brooklyn-based luxury home fragrance brand known for its modern, elevated everyday essentials for home and body care. The brand rooted in craftsmanship combines clean, simple design with carefully curated scents made in small batches.

About Apotheke

Sustainable Sourcing

Fragrance ingredients are measured against four goals for sustainability: Improve working conditions in their factory or farm, promote sustainable agricultural, reduce environmental footprints, and improve the lives of the communities where they are sourced.

Upcycling

We use ingredients that were able crafted with maximum respect for nature. Where some may consider certain raw materials "useless" we have found ways to turn them into unique scents that delight and inspire. This can be seen in many ways including alternate ways of sourcing, green chemistry, or reducing energy consumption.

Orpur Fragrances

It means 'pure gold' in French, and this exceptional collection of natural materials is just as beautiful and sought after as the precious metal. Orpur® qualities are individually selected and rigorously reviewed. Crops are re-evaluated season after season to ensure consistency and unparalleled quality. Responsible sourcing, traceability and sustainability are key to this collection of ingredients.

“A friend who owns a distillery of essential oils often sent me some of the essential oils and signed it, 'to my little Brooklyn apothecary.' Apotheke is German for apothecary, and it's the name that I trademarked.”

BEEKMAN
1802

About Beekman 1802

Kind to Animals

We're proud to be certified cruelty-free by PETA and Leaping Bunny. In addition to the 100 goats at the Beekman 1802 farm in Sharon Springs, NY, we source our goat milk from 25 private US family farms, owned by multiple generations of farmers.

Kind to Planet

Our Neighbor Recycling Program provides a completely free, zero-waste and accessible way to upcycle all of our packaging. Just download a label, ship your empties to Terracycle (we pay for it), and they will turn them into new products...like Adirondack chairs.

Kind to Community

We are a community built on Kindness. We believe in the importance of sharing knowledge, stories, and a sense of belonging with our Neighbors while celebrating the bonds we share and the beauty of our artisans' work. Together, we can make anything more Kind.

“Kindness is a really powerful thing on many levels.”

CASWELL-MASSEY

AMERICA'S ORIGINAL EST. 1752

Iconic American Luxury

Caswell-Massey is the longest continually operating fragrance brand in America, specializing for nearly three hundred years in fine fragrance, luxury soap, and fragranced skincare products.

Since our founding in 1752, the brand has defined the American luxury lifestyle. Today, our products reflect ten generations of expertise in fine American fragrance and a longstanding dedication to naturally derived, mindfully formulated and against animal cruelty products.

About Caswell Massey

America's Oldest Consumer Brand

Caswell-Massey, established in 1752, holds the distinction of being America's fourth-oldest continuously operating company and its oldest consumer brand. Guided by the motto "America's Original Soap and Fragrance Company" the company boasts a rich history rooted in innovation, craftsmanship, and timeless elegance.

Humble Beginnings

Founded in Newport, Rhode Island, in 1752, Caswell-Massey began as Dr. Hunter's Apothecary. Inspired by Newport's trade in European fineries, Dr. Hunter soon blended locally distilled lavender and verbena with imported sandalwood, crafting personal-care luxuries that paired wellness with exquisite scent.

Twentieth Century Masters

Caswell-Massey established its reputation as a leading perfumer by creating bespoke scents for celebrity customers. Nearly three centuries on, Caswell-Massey remains the quintessential American perfumery—celebrated for heirloom soaps, meticulous grooming essentials, and timeless fragrances that define refined luxury.

“Our vision of American luxury was designed to be accessible to everyone, honor the skilled craftspeople behind the work, and respect the land and resources needed to produce high-quality products that enhance and enrich everyday life.”

HINOKI COLLECTION

Our collection of vegan amenities is designed to bring simplicity to your life. Free of any promise other than making you feel good.

SACHAJUAN

Algae Bioscience Meets Craftsmanship

A Swedish haircare brand founded by internationally renowned hair stylists Sacha Mitic and Juan Rosenlind. SACHAJUAN has been developing products since 2004 and has remained committed to their philosophy to simplify haircare by reducing superfluous products, ingredients, and routines. Their continuous ambition is to make hair care and styling effortless and uncomplicated.

Hair care rooted in simplicity and performance, the brand uses Ocean Silk Technology—a blend of marine algae—to strengthen, hydrate, and add shine delivering salon-quality results.

About Sachajuan

Bioscience in Hair Care

Using Algae Bioscience, SACHAJUAN developed Ocean Sil Technology, an integral part of the product line. It is a unique composition of cold-water algae combined with clean and effective ingredients, developed to create high-performing formulas.

Ocean Silk Technology

Ingredients are selected based on purity and performance. Ocean Silk Technology involves the use of cold-water algae, which has scientifically proven positive effects on hair, combined in various concentrations and developed into highly effective formulas.

Coastal Algae

The algae is harvested from the coast of Brittany, France, through strict environmental control. The sea surrounding this region, the Bréhat archipelago, features a rich biodiversity with hundreds of species.

“When we launched our range, we didn’t set out to create a 'cult' brand - we started out because we felt that hair care was becoming too complex. We wanted to make it simple for our stylists and clients, think: hair care made easy.”

-Sacha Mitic. co-founder of SACHAJUAN

French Heritage For Today

Victor Vaissier is a French-inspired fragrance and personal care brand that blends 19th-century heritage with modern simplicity. Popular with European and Russian royalty, the brand became synonymous with luxurious fragrances that were both exotic and different.

Known for elegant soaps, lotions, and scents, the brand uses natural ingredients and timeless fragrances to elevate everyday rituals.

About Victor Vaissier

Brand Heritage

Founded in the late 1800s Paris, by Victor Vaissier, it became known for its luxurious soaps, elegant packaging, and exotic fragrances inspired by his travels to Japan, Congo, and Samoa. A master perfumer, Vaissier created over 20 distinctive scents, and became the official soap supplier to the King of Belgium, the Tsar of Russia, and Romania's royal court.

Our Values

All our products are vegan – there are no animal derived ingredients in any of our products. We also formulate our products without the use of any potentially harmful preservatives.

From France To Sweden

The Victor Vaissier brand has been reinvigorated by CEO Paul Hodann, who discovered the brand and its history at a flea market in Paris and wanted to share it with the wider world. Victor Vaissier is now owned by Paul based in Sweden.

Victor Vaissier's legacy is evident in the brand's commitment to blending French heritage with contemporary minimalist design, offering sophisticated and beautifully fragranced products.
